## Profile Summary

- **Certified Microsoft Azure Fundamentals AZ-900 with 3+ years of experience** in web-app design, development, and deployment.
- Extensive experience in writing high-quality & maintainable code.
- I have experience in developing E-commerce platforms, Admin Panels & Dashboards, Stock Trading apps & Mobile apps.
- Experience in developing CI-CD pipelines in **Jenkins & Travis CI**.
- Extensive knowledge with AWS Managed Services (VPC, SG, IAM, RDS, S3, EC2, EBS, Route53, etc.)

## Work Experience

- **Software Engineer**  
Persistent Systems  
Sep 2021 - Present
  - I am responsible for managing Jenkins' CI CD pipeline.
  - Build automation scripts using Python and Shell scripts.
  - I build docker images and push them to the repositories using Travis CI.
  - Develop Dockerfiles and configuration files for Kubernetes.
  - Develop Kubernetes Operators in Go lang to manage Kubernetes pods.
- **Full Stack Developer**  
Prococat Technologies  
Jun 2020 - Aug 2021
  - I was responsible for gathering requirements and communicating with clients.
  - I have designed Database Schema Design & Web App Architecture Design
  - As a full-stack developer, I have written REST API for various web applications, including stock trading apps, e-commerce websites, OTT platforms, and admin panels.
  - In addition, I have designed web and mobile app front ends.
  - Project deployment on various clouds and configuration of the clouds using the Nginx web server.
  - Integration of multiple APIs, such as RazorPay Payment API, Azure Face API, and Zerodha Kite API
- **Web Developer**  
Robovr  
Aug 2020 - Nov 2020
- **PHP Developer**  
Ideal Village  
Jan 2020 - Apr 2020
- **Tech Lead**  
Take It Ideas  
May 2019 - Jun 2019
