### Key Skills

## Work Experience

- **Product Engineer**  
InfraCloud Technologies Pvt. Ltd.  
Jan 2023 – Present
  - Demonstrated experience in developing cloud-native applications specifically designed to run on Kubernetes.
  - Skilled in designing and implementing microservices architectures using Kubernetes.
  - Experienced in configuring Kubernetes components, such as pods, nodes, and volumes, for optimal performance and scalability.
  - Skilled in writing YAML configuration files for Kubernetes resources such as deployments, services, and ingress controllers.
  - Proficient in creating containerized applications using Docker and deploying them to Kubernetes clusters.
- **Software Engineer**  
Persistent Systems  
Sep 2021 – Jan 2023
  - Implemented automated backup system with Python script to synchronize project files between virtual machines and JFROG Artifactory, resulting in a 65% increase in system efficiency.
  - Designed and developed Jenkins CI/CD Pipelines and Ansible playbooks for VM and Kubernetes cluster provisioning on IBM CPS system.
  - Developed Bash and Python scripts to automate tag replacement in manifest files and Ansible Jinja templates, resulting in a 50% reduction in deployment time and minimized human error.
  - Proficient in Kubernetes manifest creation, configuration, deployment, and troubleshooting, utilizing tools such as kubectl and Kubernetes logs. Skilled in integrating Kubernetes deployments into CI/CD pipelines for efficient application and service development and deployment.
- **Full Stack Developer**  
Procohat Technologies  
Jun 2020 – Aug 2021
  - Managed a team of junior developers in Agile-based 5-phase product development cycle, resulting in the successful development of a robust software application while building and maintaining product roadmaps.
  - Developed REST APIs for real-time data processing on servers, resulting in a 30% increase in device processing speed. Proficient in implementing REST APIs for various web applications including stock trading apps, e-commerce websites, OTT platforms, and admin panels.
  - Designed front ends for web and mobile applications, deployed projects on multiple clouds, and configured them using the Nginx web server. Proficient in API integration, including RazorPay Payment API, Stripe API, Azure Face API, and Zerodha Kite API. Demonstrated ability to utilize software engineering expertise throughout the software lifecycle to develop products that improve business efficacy.
- **Web Developer**  
Robovr  
Aug 2020 – Nov 2020
- **PHP Developer**  
Ideal Village  
Jan 2020 – Apr 2020
- **Tech Lead**  
Take It Ideas  
May 2019 – Jun 2019

### Certifications & Accreditations

Red Hat Delivery Specialist - Container Platform Application Deployment  
[View](#)

Microsoft Certified Azure Fundamentals  
[View](#)

### Education

Bachelor in Computer Science Engineering  
2017 - 2021  
Aggregate - CGPA 8.77 / 10
